

# SAFETY LEVEL

CORPORATE COMPANY PROFILE 2026

INTEGRATED SECURITY, SAFETY, AND CONTRACTING SOLUTIONS

# DECADES OF EXCELLENCE IN INTEGRATED CONTRACTING AND SECURITY

## INTRODUCTION

Safety Level is a premier general contracting firm specializing in high-stakes security and safety infrastructure. We combine technical precision with operational excellence to deliver projects that protect what matters most.

## LEGACY & MARKET POSITION

Built on a foundation of technical precision and operational excellence, Safety Level has become a dominant player in the construction and security industry, known for fast-tracked project delivery and uncompromising quality.

*"We don't just build; we protect assets, people, and the future through engineering innovation."*

# VISION: SETTING NEW QUALITY STANDARDS IN GLOBAL CONTRACTING

## ■ INNOVATION

Constantly developing new construction solutions to meet evolving security challenges and infrastructure needs.

## ■ FEASIBILITY

Providing the most cost-effective and technologically advanced engineering solutions for complex projects.

## ■ QUALITY

Exceeding client expectations through rigorous quality control and timely project execution on every scale.

## ■ VALUE ENGINEERING

Applying value engineering concepts to maximize project efficiency, durability, and long-term performance.

# MISSION: DELIVERING UNCOMPROMISING QUALITY

## 01 SERVICE LEVEL

Performing the highest level of quality construction services at competitive market prices, ensuring value in every project.

## 02 LONGEVITY

Ensuring company growth through repeat business achieved by total customer satisfaction and attention to detail.

## 03 INNOVATION & LEADERSHIP

Being recognized as the most innovative contracting and security service provider, retaining our position as a distinguished leader.

# HEALTH, SAFETY, AND ENVIRONMENT (HSE) IS OUR TOP PRIORITY

## ■ PERSONNEL PROTECTION

Utmost care for the health and safety of our workforce and the public. We consider protecting personnel as a priority in all the projects we execute.

## ■ ENVIRONMENTAL STEWARDSHIP

Minimizing the environmental footprint of our construction and security projects through sustainable practices and environmental objectives.

## ■ COMPLIANCE

Full adherence to all applicable international and local HSE legislation, ensuring every project meets the highest safety standards.

## ■ CONTINUOUS IMPROVEMENT

Regularly reviewing, improving, and updating our HSE policies and environmental objectives to reflect the latest safety standards.

## SAFETY LEVEL

SECURITY & CONTRACTING SOLUTIONS

Delivering integrated security, safety, and construction excellence to protect what matters most — people, assets, and infrastructure.

### WHO WE ARE

#### OUR COMPANY

Safety Level is a specialized contracting company dedicated to providing comprehensive security and safety solutions. We combine deep technical expertise with a commitment to quality, delivering projects that meet the highest international standards across construction, infrastructure, and security systems.

#### OUR MISSION

To be the trusted partner for organizations seeking integrated safety and security solutions — from physical infrastructure and road works to advanced alarm systems and armored facilities — ensuring every project is delivered with precision, reliability, and lasting value.

100%

CORE SERVICES

24/7

SUPPORT & CONSULTATION

ISO

CERTIFIED STANDARDS

### OUR CORE SERVICES

#### SECURITY & SAFETY SYSTEMS

Installation & integration of advanced security and safety infrastructure.

#### ROAD PAVING

Professional asphalt and road paving works to the highest standards.

#### CONSTRUCTION WORKS

Full-scope civil and structural construction services.

#### SECURITY BARRIERS

Supply & installation of crash-rated bollards and perimeter barriers.

#### ARMORED ROOMS

Design and construction of blast-resistant and bulletproof safe rooms.

#### FIRE & ALARM SYSTEMS

Supply & installation of fire suppression and detection systems.

# COMPREHENSIVE SERVICES: A ONE-STOP SOLUTION

## CIVIL & STRUCTURAL

Engineering excellence from pre-design to full project management.

## PUBLIC SECURITY

High-stakes infrastructure for governmental and critical sites.

## ELECTRICAL & MECHANICAL

Integrated MEP solutions for industrial and commercial facilities.

## TELECOM & IT SECURITY

Advanced network operations and intelligent surveillance systems.

## FIRE & ALARM SYSTEMS

NFPA-compliant detection and automatic suppression solutions.

## OPERATION & MAINTENANCE

Ensuring long-term reliability through expert facility management.

## THE INTEGRATED APPROACH

We seamlessly combine construction expertise with advanced security technology, providing a unified solution that simplifies complexity and enhances protection.

# ADVANCED SECURITY AND SAFETY SYSTEMS INTEGRATION

## ■ CCTV & SURVEILLANCE

High-definition monitoring and intelligent video analytics for real-time threat detection and situational awareness.

## ■ ACCESS CONTROL

Biometric and smart-card systems for restricted area management, ensuring only authorized personnel enter critical zones.

## ■ INTRUSION DETECTION

Advanced sensors and perimeter protection systems designed to safeguard critical assets against unauthorized breaches.

## ■ HSE SYSTEMS

Integrated health, safety, and environmental monitoring for industrial and commercial sites to ensure full compliance.

# PROFESSIONAL ROAD PAVING AND INFRASTRUCTURE

## ■ ASPHALT WORKS

High-quality road paving for highways, industrial zones, and residential complexes using premium materials and advanced machinery.

## ■ SITE PREPARATION

Comprehensive excavation, leveling, and compaction services to ensure a stable foundation for all infrastructure projects.

## ■ DURABILITY & QUALITY

Rigorous testing and adherence to international standards to ensure long-lasting road surfaces that withstand heavy traffic and environmental stress.

## ■ PROJECT MANAGEMENT

Full-cycle management from initial site survey and design to final inspection and maintenance handover.

**SAFETY LEVEL**

# COMPANY PROFILE

## CIVIL CONSTRUCTION AND STRUCTURAL ENGINEERING

- **BUILDING TECHNOLOGY**  
Optimal solutions from pre-design and design phases to full project management, utilizing cutting-edge construction methods.
- **STRUCTURAL INTEGRITY**  
Concrete works, expansion joint systems, and steel structures built to last, ensuring safety and durability in every project.
- **FINISHING & FIT-OUT**  
High-end architectural finishing for commercial and governmental buildings, delivering aesthetic and functional excellence.
- **TURNKEY DELIVERY**  
Managing all construction stages to ensure a seamless handover, from site survey to final commissioning.

# SPECIALIZED SECURITY BARRIERS AND ARMORED SAFE ROOMS

## ■ SECURITY BARRIERS

Installation of crash-rated bollards, K-rated fences, and anti-ram barriers to prevent unauthorized vehicle access.

## ■ ARMORED ROOMS

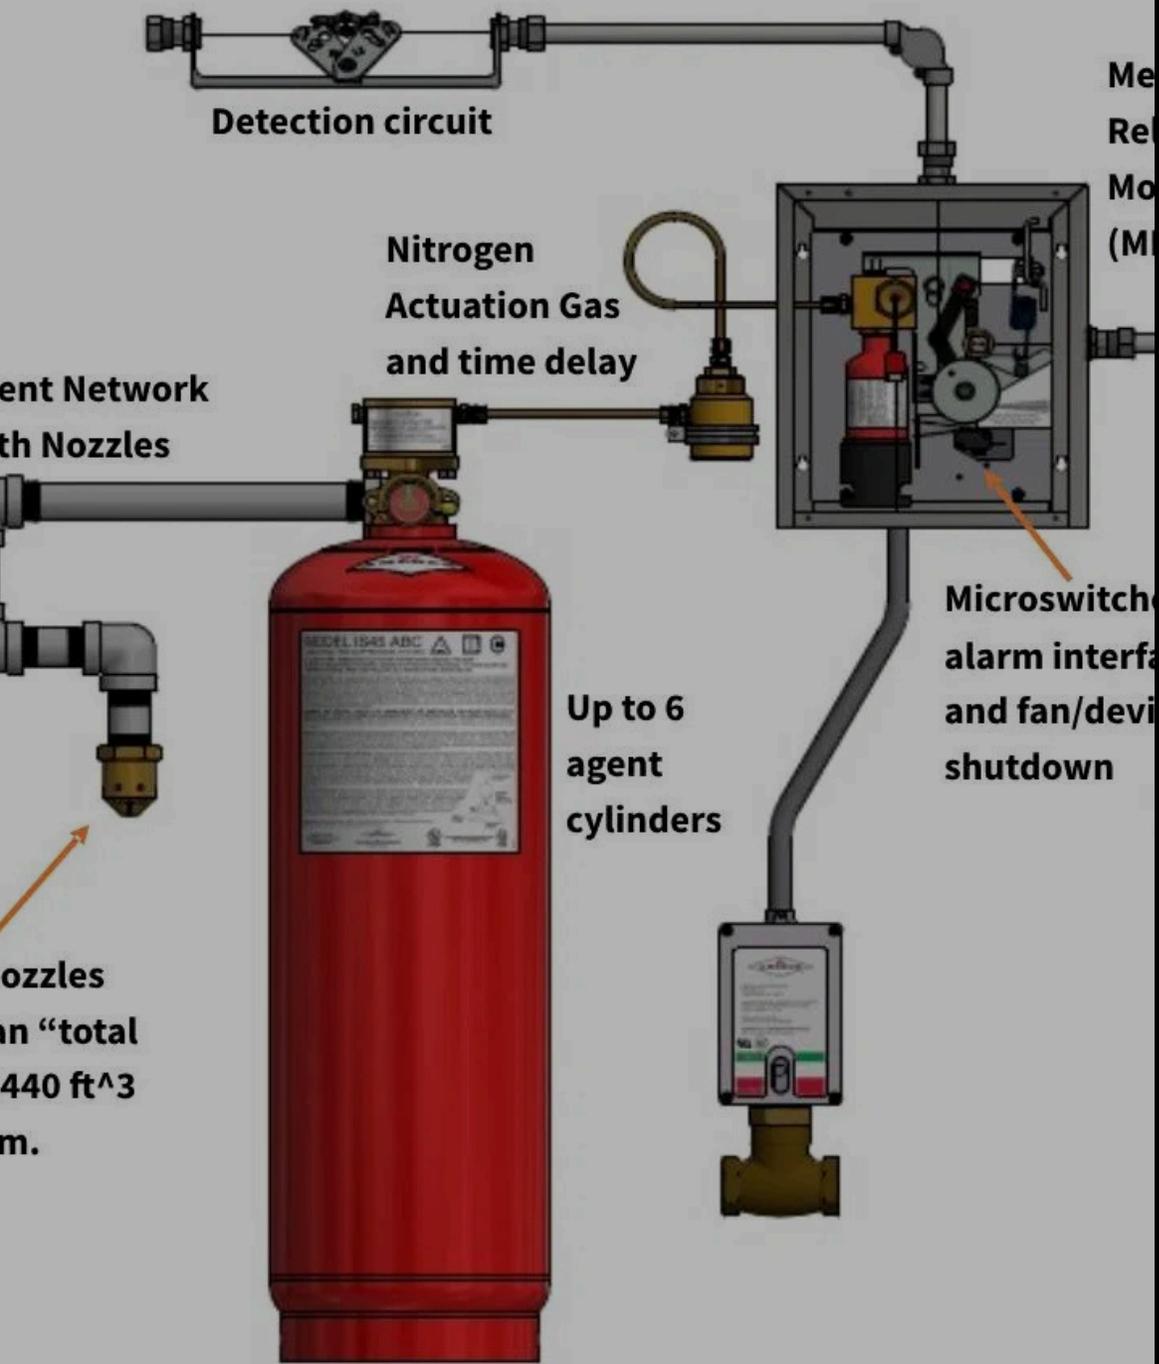

Design and construction of blast-resistant and bulletproof safe rooms (Safe Heavens) for high-threat environments.

## ■ CRITICAL INFRASTRUCTURE

Protecting governmental, military, and high-profile private facilities with integrated physical security layers.

## ■ PRECISION ENGINEERING

Custom-built solutions tailored to specific threat levels, ensuring maximum protection without compromising functionality.

# FIRE EXTINGUISHING AND ADVANCED ALARM SYSTEMS

- **DETECTION**  
Intelligent smoke and heat detection systems for early warning, minimizing risk and response time.
- **SUPPRESSION**  
Automatic re extinguishing systems (Gas, Water, Foam) compliant with NFPA and local civil defense regulations.
- **INTEGRATION**  
Fire systems integrated with building management and security networks for a unified safety response.
- **MAINTENANCE**  
Regular testing, certification, and 24/7 readiness support to ensure systems perform when they are needed most.

WHAT WE DO

## DETAILED SERVICE OFFERINGS

Safety Level delivers end-to-end solutions tailored to the unique requirements of each client — from initial consultation and design through to installation, commissioning, and ongoing support.

### SECURITY & SAFETY SYSTEMS

Complete installation and integration of CCTV, access control, intrusion detection, perimeter security, and HSE compliance systems — engineered for maximum reliability and operational efficiency.

### ROAD PAVING

High-quality asphalt paving, road construction, and surface preparation services for commercial, industrial, and governmental projects, delivered with precision equipment and experienced crews.

### CONSTRUCTION WORKS

Full-scope civil construction including structural works, concrete, cladding, finishing, and fit-out — managed from pre-design through commissioning with rigorous quality control at every stage.

### SECURITY BARRIERS & BOLLARDS

Supply and professional installation of crash-rated vehicle barriers, anti-ram bollards, K-rated fences, and perimeter protection systems to secure critical infrastructure and high-value facilities.

### ARMORED & SAFE ROOMS

Design and construction of blast-resistant, bulletproof, and anti-intrusion safe rooms and vaults — built to international protection standards for government, military, and private sector clients.

### FIRE EXTINGUISHING & ALARM SYSTEMS

Comprehensive supply and installation of fire suppression systems, smoke detectors, alarm panels, and emergency response equipment — compliant with NFPA and local civil defense regulations.

## WHY CHOOSE SAFETY LEVEL?

### PROVEN EXPERTISE

Years of hands-on experience in security and contracting across diverse sectors.

### TURNKEY SOLUTIONS

From design and supply to installation, commissioning, and maintenance.

### QUALITY ASSURED

Strict adherence to international standards and best practices on every project.

### CLIENT-FOCUSED

Tailored solutions, transparent communication, and lasting partnerships.
